MASCOT® Uppsala Thermal Under Shirt 00585-380

Thermax® - 55% polyester/23% modal/22% cotton
260 g/m²

- Thermax® triple layered insulating material
- Moisture wicking so ideal as an inner layer
- Triple layered loops on the inner side traps the air and provides insulation
- Size: S-3XL

THERMAX®

Thermax is an insulating triple layered material developed by MASCOT. Thermax® is used in our thermal underwear and designed for use in very low temperatures and work with lower activity levels. The fabric is extremely heat insulating. An inner polyester layer channels perspiration out to the cotton and modal fibres in the outer layer.

Thermax® is a registered trademark of MASCOT International A/S
